

Dear ECE Student,

I am so pleased you have chosen to enroll in the Early Childhood Education Program at the Coshocton County Career Center. You may be slightly nervous about attending a brand-new school; however, I'm sure you will find your experiences at the Career Center will open you up to a world of wonderful possibilities. You will form new friendships, develop new skills, and most importantly make a difference in the lives of children.

Along with this letter you will find important information and forms for ECE students. Included is directions for getting a childcare physical (which needs to be filled out by your doctor) as well as supplies you will need for next year. Please read through the information carefully. I encourage you to take care of the physical and state ID for fingerprints over the summer.

If you have any questions about next year, please feel free to reach me at the e-mail address listed below. You have made an important decision for your future by choosing to attend the Career Center. I wish you great success in the ECE program, and I am honored to be part of helping you reach your goals.

Enjoy the rest of your summer!

Sincerely,

Megan Grimm
